## Profile

I am a hard working individual that does all I can to create a healthy happy work environment. I have been sort of a jack of all trades throughout my life and have the skills to accommodate any challenge I am faced with. I enjoy problem solving and finding the most efficient way to get the job done. In my free time I enjoy hanging out with my wife and our five dogs, traveling, snowboarding, and staying physically fit. I am looking forward to the opportunities that the future holds for me.

I am currently a student at the Tech Academy learning software development. I am looking for a brighter future in the tech industry. I have done assignments dealing with HTML, CSS, JavaScript, Python, SQL, and C#. I have worked as member of an Agile/Scrum development team to contribute to existing code base.

## Experience

Software Developer Intern, Prosper IT Consulting; Portland, OR — 2022

I worked on an Agile/ Scrum development team during a two week sprint to help build an app using Python and Django framework. As part of the project I attended daily stand-up meetings, and an end of week retrospective.

Owner, Nebula Creative; Midvale, UT - 2021 - Current

Nebula Creative is a company that specializes in custom printed goods for business, promotional, events, or retail. I offer competitive pricing, and stellar customer service. I am responsible for finding clients and putting together orders; coming up with quotes, ordering product, and delivering product when completed.

Printer/ Shipping and Receiving Apex Screen Print; Centerville, UT – 2013- Current

As the lead printer I am responsible for getting the press ready for printing; registering artwork, pulling product, setting the press and other equipment, and quality control while running jobs. I am also responsible for making the schedule to get jobs done on time and communicating with clients when they can expect to have their jobs completed.

In shipping and receiving I am responsible for making sure product arrives on time and complete, following up with clients if there are any changes to an order, organizing the warehouse, and preparing orders for printing.

Arborist, Rivendell Tree Experts; American Fork, UT 2019 - 2020

As an arborist I would assess trees, climb and prune them, and clean up afterwards. I was also responsible for maintaining equipment, and following all safety protocols. It was a job that was incredibly exciting and required a great deal of situational awareness and planning.

Personal Trainer, 24 Hour Fitness; Murray, UT – 2018-2019

As a personal trainer I am responsible for finding clients, selling them on memberships and personal training packages, evaluating clients fitness needs/ goals, creating a workout plan, offering guidance, and helping them achieve their goals.
